

Sync Calendar and Contacts (example iPhone or Mac OS) via CalDAV and CardDAV protocols

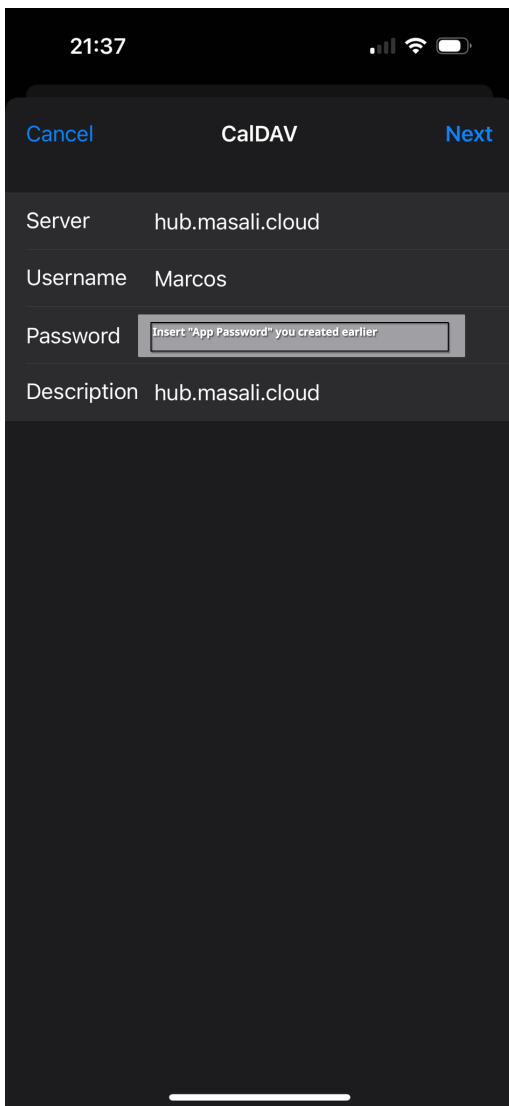

Calendar and contacts are added to macOS and iOS in the same way:

First, you need to create an "App Password" for your new connection. Follow [this](#) guide to complete this step.

Add Calendar Sync

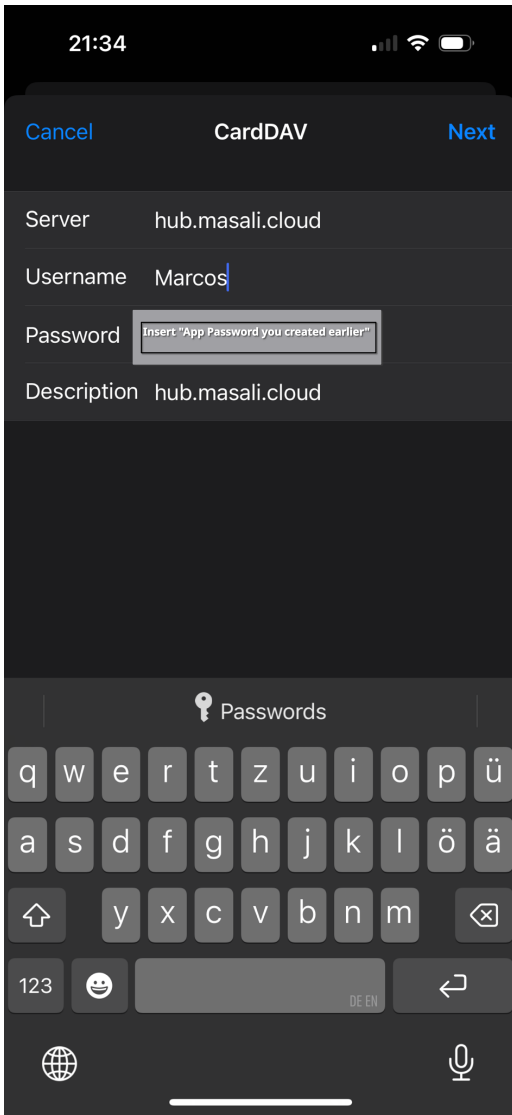

In the next step, add the calendar to your iPhone / Mac:

Go to Settings -> Calendar -> Accounts -> Add Account -> "Other" -> "Add **CalDAV** Account"...
and fill in the fields as shown below.

Add Contact Sync

To add contact synchronization, go to: Settings -> Calendar -> Accounts -> Add Account -> "Other" -> "Add **CardDav** Account"... and fill in the fields as shown below.
